## **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: The claim is allowable because the prior art fails to teach a retractable blade guard secured to a base and engaging a lid, wherein the lid comprises a cam and the blade guard is threaded over the cam as set forth in claim 6, 19, 34 and 57.

Gaffney et al. teaches a base (12 and 42) having a pill cutting surface, a lid (22 and 52) connected to the base (by a hinge 26 and 56), a blade/cutting device (21 and 51); and a retractable blade guard (31, 32, 54, 61, and 62) secured to the base (by a hinge 26 and 56) and engaging/coupled the lid (see Fig. 4 and 8). However, the retractable blade guard of Gaffney et al. is not threaded over a cam, which is missing in the prior art. Also, Ford teaches a cylinder/cam 9 and blade guard 21 threaded over the cam. One of ordinary skill in the art would not combine Gaffney et al. with Ford because the blade guard of Ford would cover the cutter of Gaffney et al., instead of uncovering the cutter in order to cut the pill, which is the function that the guard of Gaffney et al. performs.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
